## LEADERSHIP EXPERIENCE

**Head of Department**

Kominfo Himatro | Universitas Lampung — Feb 2024 – Dec 2024

This position is the highest in the hierarchy of a Department "Komunikasi dan Informasi" in the Himpunan Mahasiswa Teknik Elektro. By overseeing two divisions, Hubungan Masyarakat and Media Informasi, Head of Department ensures that the overall program designed smoothly with excellent teamwork. In 2024, 71 members were led..

**Steering Committee**

Electrical Engineering in Action | Himatro Unila — Mar 2024 – Oct 2024

Appointed as strategic lead for two divisions, "PDD" and "Kesekretariatan", during a national event, overseeing coordination indirectly through each division's koor and secretary, while serving as a point of consultation and providing solutions when teams encountered.

**Department Secretary**

Kominfo Himatro | Universitas Lampung — Feb 2023 – Dec 2023

This position takes care of the overall administration needed by the programs in the department, including activity proposals, correspondence, member attendance, and accountability reports. all of which are efficiently managed using administrative tools such as Google Docs, Google Spreadsheets, and other office tools. The Department Secretary plays a pivotal role in representing the Head of Department, ensuring seamless communication and effective leadership.

**Field Coordinator**

KKN Kedamaian | Universitas Lampung — Jul 2025 – Aug 2025

Led a KKN team of 8 members during a one-month community engagement program, ensuring that team composition and planned initiatives aligned with targeted outcomes and delivered meaningful impact. Periodic assessments were conducted to identify and resolve emerging issues, maintaining consistency and effectiveness throughout the implementation.

## PROJECT

**relawantrefa.com**

Fullstack Developer | Kanwil DJPb Provinsi Lampung

Designed and developed a web-based platform to enhance transparency in volunteer management and support public dissemination of the new role "Trefa" (Treasury, Regional Chief Economist, and Financial Advisor). The system was built using the Laravel framework over a four-month period, applying the iterative-incremental method to ensure both efficiency and rapid release of modules in each iteration. The project was independently executed, demonstrating strong capability in end-to-end development.
